# CONTRIBUTIONS OTHER THAN CASH 

Instructions: Use the Average (Avg) Value Column as a guideline. These values are based upon $15-20 \%$ of an average purchase price for the items.
If the price you pay for the items are more or less than the Average Value listed above, list in the Original Cost column the price you normally pay for the item. In the Actual Value column, caluculate the donation value at $15-20 \%$ of the Original Cost. Extend the Actual or Average Value by the Quantity donated to calculate the Total Value of the items contributed
